Guide to Wellbeing

Resources, Workshops, Groups and Virtual Events
Focused on Connection, Community and Healing.
Our Vision
All members of our community live and die with dignity.

Our Mission
Hospice of Santa Cruz County honors the choices of individuals and families by providing exemplary end-of-life care and grief support to our community.

“There is always light, if only we’re brave enough to see it – if only we’re brave enough to be it.”
—Youth Poet Laureate Amanda Gorman

Dear Friends,

Welcome to the Spring edition of our Guide to Wellbeing. Many of us are entering into 2021 with hope. It is indeed a time for cautious optimism as the rollout of the COVID-19 vaccine gains momentum in our community and across the country. Still, the call to socially distance from our friends and loved ones – and the repercussions of a year filled with environmental, social, and political turbulence – can take its toll.

At Hospice of Santa Cruz County, we are witnessing how grief from the loss of a loved one can be intensified by the compromises which must be made in caring for and honoring a loved one when they die during a pandemic. We have also experienced how platforms like Zoom can bring friends and family from across the country and across the globe together, creating moments of deep connection at virtual gatherings and memorial services. These times call for us to tap into our resilience. They invite us to think not only of our own wellbeing but of others. In this Guide, you’ll find offerings of support – whether you are grieving, exploring what death and dying means to you, or taking steps to complete or revise an Advance Healthcare Directive. You’ll also find ways to volunteer, support your fellow community members, and help sustain our mission. As you will see, there are many avenues to your greater sense of wellbeing, and we are honored to be part of your journey.

We care about you and are here for you and our community.

“Live for each second without hesitation.”
– Elton John
Virtual Movie Night: Living While Dying
Wednesday, April 7, 6:00–7:15 pm

Join us for a free documentary screening followed by a discussion with filmmaker Cathy Zheutlin and a panel of local experts. From the filmmaker, “As a baby boomer, I became curious about death and decided to pick up my camera and film four friends with terminal illnesses who chose to live out their days in hospice care at home. Along the way, I sought the advice of an aboriginal elder and a death-walker in Australia, witnessed a mass cremation in Bali and asked my 90-year old mother to sit in a coffin while we discussed her end-of-life wishes.”

Registration required. Register at: hospicesantacruz.org/event/living-while-dying/

Virtual Music Meditation and Relaxation for Caregivers

Virtual Book Club: The Art of Dying Well by Katy Butler
Wednesday, May 19, 5:30–6:30 pm

Join us for a meaningful discussion of Katy Butler’s thoughtful and practical book, The Art of Dying Well. This discussion will be led by Vanessa Silverstein, Community Education and Outreach Coordinator. We recommended you read the book ahead of time, but you can also participate if you have yet to read the book. About the book: With extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows us how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our healthcare system, and how to make your own “good death” more likely. The Art of Dying Well prepares readers for seven phases of late life, from vigorous old age to the final breath. Filled with life-affirming and relatable anecdotes, each chapter addresses a specific stage: Resilience, Slowing Down, Adaptation, Awareness of Mortality, House of Cards, Preparing for a Good Death, and Active Dying. Registration required. Register at: hospicesantacruz.org/event/book-club/
Virtual Movie Night: A Love that Never Dies
Wednesday, June 9, 6:00–7:30 pm

Join us for a free documentary screening followed by a discussion with a panel of local grief experts. How do we grieve? Why do we grieve? And why are we afraid of those that do grieve? Jane Harris and Jimmy Edmonds’ son Josh died six years ago while travelling in Southeast Asia. As a way of honoring his memory, they set off on their own road trip across the USA to find out why, in a world where death will always make front page news, real life conversations about death, dying and bereavement are so problematic. Along the way they find other bereaved families with stories of grief that refuse social expectations about moving on or letting go. This film gives a voice to grief in ways that will move and inspire.

Registration required. Register at: hospicesantacruz.org/event/hospice-movie-night/

Planning your healthcare wishes ahead of time is a gift to you and your loved ones.

This is a difficult time where so much feels out of our control. With the presence of COVID-19 in our community, now is a good time to make sure you have an up-to-date Advance Healthcare Directive. It is recommended that everyone 18 years or older completes an Advance Directive.

Planning ahead brings peace of mind and comfort to family members who will know how to honor your wishes. We’re here to help with this process through a variety of offerings, all free of charge.
Individual Phone or Zoom Advance Directive Sessions
Our individual sessions are perfect for people who are ready to complete their Advance Directives, with support. Schedule a one-on-one appointment to complete your Advance Directive. We will share copies of the necessary forms and walk you through filling them out, step by step.

Schedule a Virtual Group Presentation
Our team facilitates planning workshops for church groups, community service groups, book clubs, or other home gatherings. We offer an overview of the advance healthcare planning steps and share copies of the necessary forms and conversation guides.

Attend a Community Webinar
The Advance Healthcare Planning Webinar covers: how to complete your Advance Directive, the difference between an Advance Directive and a Physician Orders for Life Sustaining Treatment (POLST) Form, how to talk with your loved ones about your wishes, and how COVID-19 might impact your wishes. Registration required.

At the heart of our work is a group of trained volunteers.

Making a real difference in the life of a patient or family is what makes being a hospice volunteer so special. There are many ways to get involved and serve our community. Whether you’re interested in volunteering directly to support hospice patients, grief support clients, or you’d like to become a community ambassador, please read on to find the right opportunity for you. By joining our vibrant community of volunteers you’ll discover how volunteering can increase your overall sense of wellbeing and make a difference in our community.

“Now I meet the most incredible people that are in the rawest moments of their life, and to be in that moment with them is a huge blessing.”

— Kerry, Grief Support Volunteer
**Volunteer Visitors**

Provide companionship and practical support.

Volunteer Visitors provide companionship to hospice patients in their homes or in the residential care facilities where they reside. As a willing listener, a hand holder, and supportive presence, these special volunteers are vital members of the hospice team. Volunteer Visitors may also provide caregivers with much needed respite. Other duties include simple snack preparation, running errands, and other practical tasks. During shelter in place, Volunteer Visitors are supporting patients while social distancing via Zoom visits, letter writing, and running errands.

We’re looking for:
- Volunteers to provide companionship to patients and respite for caregivers
- Pet Companions
- Spanish and English speakers
- Veterans

Volunteer Visitors receive 25 hours of training covering topics such as effective communication and presence, boundaries and mindfulness. The Spring Volunteer Visitor Training will be held virtually via Zoom. Trained Volunteer Visitors help out for 3-4 hours each week, with a one-year commitment. Many Volunteer Visitors enjoy the experience so much that they gladly extend their commitment beyond one year.

“Serving is not so much about doing as it is about being. There is no greater gift than to be with someone in need of comfort and care. I look in the eyes of my hospice patients and I see that need. I am grateful not only for the hospice volunteer training program, which is powerful, relevant and meaningful, but also for the opportunity to serve the hospice community.” —Valerie, Volunteer Visitor

Hospice Care
Hospice care provides medically directed comfort care, and emotional and spiritual support for individuals diagnosed with a life-limiting illness. Hospice care is covered by Medicare, Medi-Cal, and most private insurance plans. No patient is ever turned away because of inability to pay. Individuals who receive hospice care are supported by a hospice physician, nurse, aide, social worker, spiritual care counselor, volunteer visitor, and optional therapies such as Music Therapy. Family members and loved ones are supported with grief support counseling as part of hospice care. You or your loved one may request a referral to hospice through your primary care physician, specialist or by calling us directly at 831 430 3000.

Palliative Care
Palliative care is specialized medical care that treats the symptoms and stress of a serious illness. Our patient-centered team works together with you, your family, and your other doctors to support and empower you. Palliative care patients typically continue with curative treatments. Your palliative care team includes a palliative care physician or nurse practitioner, a nurse, and a social worker. We are committed to helping our patients understand their treatment choices, establish goals of care, and improve quality of life. Medi-Cal, Medicare, and most private insurance plans cover palliative care.

Transitional Care
Transitional care is designed for individuals that have been diagnosed with a serious illness and need the expert guidance of someone to help them navigate available resources and support their emotional wellbeing as they work through serious illness. Transitional care is different from palliative care in that there is not a medical aspect to this care.

Concurrent Care for Children
This new form of care supports medically fragile children with home-based pain and symptom management. Our interdisciplinary team provides medical, emotional, and spiritual support to your child, helping optimize quality of life and goals of care. Children on our service may continue to seek life-sustaining and curative treatments while receiving home-based comfort care.

Grief Support
We provide grief support to families and loved ones of those who have been on hospice care and to the community at large. We offer both individual counseling and tailored group grief support as you’ve seen in this guide. We encourage you to reach out and we can discuss how we can help. Please email griefsupport@hospicesantacruz.org or call 831 430 3000.
